

Quality, Safety, and Environmental Quality Policy of Palziv

This combined policy was drawn up by the Palziv administration to present the guiding principles of the company in accordance with the strategic plans of the organization.

Palziv is committed to the continuous improvement of the quality of its products, services and implementation of its quality assurance system that incorporates quality, safety and environmental quality.

The Palziv administration believes that high quality is of utmost importance for business growth and an essential factor that ensures the existence of the company for the good of all interested parties – the owners, the customers and the employees.

The administrative team will exhibit leadership and commitment and will be fully responsible for the establishment, application, integration and upkeep of this combined policy by initiating the following:

- Create a culture that promotes quality, safety and environmental quality throughout the entire company and nurtures a binding connection between the employees and company goals and objectives.
- Produce and supply of products and services that fully comply with customer requirements and provide customer satisfaction.
- Comply with laws, directives and standards that apply to quality, safety and environmental management issues.
- Set goals and objectives for improved quality and environmental management sectors and conduct reviews of these goals from time to time.
- Plan and implement actions to prevent pollution and reduce the environmental footprint of the plant.
- Initiate procedures that will ensure identification of dangerous factors and integrate methods to tend to those dangers that have been classified as posing a negative effect on the quality of the products / services, safety and / or environmental quality.
- Allocate resources needed to achieve the goals and objectives so that this policy can be effectively implemented.
- All of the company's managers and employees are fully committed to the implementation of this policy.

In our effort to achieve these goals, Palziv will manage a quality assurance system that complies with the ISO9001; 2015 standard and an environmental management system that complies with the ISO14001; 2015 standard.

All employees of the company are bound by this policy at all of its sites and will be brought to the knowledge of all interested parties.

Meir Langer – CEO Palziv
